If a “Send Directly” order is given, upon pivoting, dog must not sit and go directly to retrieve the scented article. The dog must return to front and handler must wait for the “Take” order to be given. If the “After a sit” command is indicated the dog must turn and sit before going to the pile of articles. The handler may not talk to the dog once the dog reaches the pile of articles. The Ring Judge will release the Team with “Exercise Finished”. Minute to minor deductions will be given for dropped articles or not releasing the article on cue. Failure of the dog to retrieve the correct article, or not retrieving any article, or giving a second “Seek” will result in a Disqualifying Score.

#8) **Moving Stand With Recall to Heel Position:** The Orders for this exercise are: “Are you Ready?”, “Forward”, “Stand Your Dog”, “Recall Your Dog”, and “Exercise Finished”. This exercise begins with the dog sitting in the heel position. The Ring Judge will instruct the handler to move forward with the dog in the heel position. Upon instruction from the Ring Judge the Handler will command their dog into stand position, not breaking stride and proceed on approximately 8 feet and recall the dog. The dog must recall briskly and sit straight, in the heel position. The Ring Judge will release the team.

## **SECTION 3**

**General Judging Guidelines and Definitions:** Level 1 class shall have a possible 100 Total points possible with a minimum of 70 points to qualify, Levels 2 – 4 shall have a possible 200 Total points with a minimum of 170 points to qualify.

**Anticipation By Dog:** A Disqualifying score will result for any anticipation by the dog. Exceptions to this are: a finish, all heeling, all figure 8 pattern heeling and sitting, and when the Exercise Finished command is given. Anticipation in these exercises will incur a minor to major deduction. Any minor foot movement or scooting will incur a minute to major deduction.

**Barking:** more than 3 to 4 consecutive barks will receive a **3 point** deduction. Continuous barking will result in a (DQ) Disqualifying score.

**Cues:** Handlers are permitted, and encouraged, to talk to, praise and encourage the dog through out the trial/performance. Additional guidelines pertaining to cues:

- \* Both hand and voice cues may be given *simultaneously* for all parts of any exercise.
- \* Additional cues *to get* a behavior, whether it be verbal, hand/body posturing, stomping feet, clapping hands, or other noise will result in a **3 point** deduction.
- \* Foot movement to achieve a behavior is considered an additional cue.

A **1 to 3 point** deduction may be assessed depending on the cue.

Example of a 1 point deduction: *small movement of the handler's feet while cuing the dog to perform a finish.*

Example of a 3 point deduction: *Stepping forward on a Drop/Down on Recall.*

\* The dogs name may be used with a cue and will not be considered nor penalized as an additional cue, unless it is used as a cue.

Example of no penalty: Fido Sit.

Example of a penalized cue: Fido (pause longer than 2 seconds) followed by a Sit Command.

\* Hand cues must not be held in place for longer than 2 seconds and must return to their original position once cue is given. Hand cues held in place for longer than 2 seconds will result in an additional cue deduction of **3 points**.

\* When using the "Stay" command, as long as the dog is not moving, a repeated "Stay" will not be penalized.

\* Any loud and/or intimidating commands, cues or signals will receive a minimum **5 point** deduction and up to a DQ and/or dismissal from the ring and/or trial grounds.

**Deduction:** A Minute deduction in Traditional Obedience is  $\frac{1}{2}$  to (1) one point. A Minor deduction is (2 -3) two to three points. A Major point deduction is (4) four points or higher.

**DQ:** Disqualifying score. Any score not meeting the minimum requirements. No points will be earned or kept track of toward a possible title or placement in class.

**Division Combining:** All divisions may be combined and run in the same ring for the same class for ring efficiency. Separate placements will be given to at least the top 4 teams in each division, excluding the Trial Officials Division.

**Entering/Leaving the ring:** Dogs must be leashed when entering or leaving the ring. This includes dogs being carried in and out of the ring, all the same rules apply. Leashes will only be removed as part of an exercise and placed in designated area or given to a Ring Steward, and replaced prior to leaving the ring. Dogs leaving the ring unleashed, and not under control will receive a DQ. Dogs leaving the ring under control, but have not passed the gate area and return for the leash will receive a 5 point deduction.

**Excusals:** Dogs must be excused if they become ill or eliminate in the ring. They may not complete the course. Dogs with sutures, open wounds, or bandages will be excused from the ring immediately. Dogs that become aggressive, show signs of extreme fear or other uncontrollable behavior will result in the Team being excused.

**Food/Treat/Petting Rewards:** Food or petting may be given without penalty at the end of stationary exercises only. Food must be kept in a pocket and not in a treat pouch until current exercise is finished and before proceeding on to next station. The handler may treat the dog upon entering the ring and before responding to the Ring Judge's call of "Are you ready?"

**Gate Zone:** Area approximately 5 foot arc in front of ring entrance or exit where no standing/loitering is allowed. This prevents double handling. This area will be monitored by the Trial personnel.

**Hand/Leash Position:** The leash should be held so as to demonstrate no tension/tightness on the dog's collar. The leash can be held in either or both hands. The leash may change hands throughout the course. Arm movement may be considered as cues, and may be used alone or with verbal cues. Delay in hand or arm position may result in an additional cue penalty.

**Handler Error:** Errors that may result in deductions incurred directly due to the handlers performance in the ring and not the dogs performance. Ring Judges may deduct minute to major points for handler errors in any performance.

**Heel Position:** The dog's body shall remain in line with the handler's left side - regardless of moving, sitting, downing, or standing. The dog's right shoulder line should be within a 12" arc of the handler's left hip line. Seam of trousers is usually a fair guideline for handler's left hip line. Circle turns or 270 turns should be no larger than a standard hula hoop.

**Interference:** Any interference that appears to aid the Team – such as a dog that would have left the ring if not for person/s or dog/s outside of ring blocking it will result in the working Team receiving a DQ. This is double handling.

**Judge's Briefing:** Prior to each class the Ring Judge will hold a short briefing to discuss any areas on the course that they may feel needs explaining. The class will be allowed to ask questions about the course at this time.

**Jump:** A bar jump with fabrication regulations the same as required for agility courses. The uprights must be between 4' – 5' apart with no wings. Jump heights will be 4", 8", 12", 16" and 18". The following scale may be used in determining the proper height for bars to be placed, though a competitor may request a higher setting:

Dog's Height	Bar Height
Under 11"	4"
11" to under 15"	8"
15" to under 20"	12"
20" to under 24"	16"
23" and over	18"

**Junior Handler Program:** This program applies to all handler's 17 years and younger. The youth must be able to control the dog they are showing. Minimum standards still need to be met in the ring. This is a separate division. Judges should take into consideration that these teams are young, inexperienced and still developing. The Judge's should also recognize the handler's age when deductions are made for handler errors.

**Retries:** There are limited retries of an exercise made prior to beginning the next station on the course. The "A" division has the option of one retry of two exercises on the course. The "B" division has the option of one retry total on the course. The "JR" division has a total of 3 retries on the course. Protocol for retries is as such:

The station/exercise sign being Retried must be re-approached and the exercise began from the beginning. If it is successfully completed on the retry, the points deducted prior to the retry will be deleted (up to 10), and 3 points for the retry along with any error points shall be deducted.

In the case of DQ's, retries may not be used to change those deductions. Deductions listed as 10 point errors may be retried with the same parameters. Exceeding the retry limits will result in a DQ.

**No Spectator Zone:** This refers to the 5 foot space or area between the ring border and the area where spectators may be allowed to observe or stand. This area will be monitored by Trial personnel.

**Ties:** Ties between Teams will be broken by performing the heeling pattern. This will be division specific. An example of a division specific tie is two competitors from same division with scores resulting in a tie.

**Touching of the Dog or Collar for control:** In the off leash portions of Level 2 and higher, the handler may guide their dog gently by the collar after the last exercise in the class prior to attaching the leash. Touching the dog or collar at any other time for control will result in a **3 point** deduction.
